

## **INSOMNIAC Kiosk Enables One Woman Show**

### **A Place for Space Installs Kiosk to Free Up Owner-Operator's Time**

SCOTTSDALE, Arizona – June 21, 2005 – OpenTech Alliance, Inc. announced today that A Place For Space Self Storage is using OpenTech's INSOMNIAC™ self-storage kiosk to enable owner Beth Schroeder to run her Rockford, Illinois facility by herself. Because the INSOMNIAC 900 kiosk enables customers to rent units and make payments 24 hours a day without a manager's help, Schroeder does not have to hire an employee to help her run the business.

“INSOMNIAC frees me up to be able to step away without worrying about losing business,” said Schroeder. “On days when I have other obligations, it’s nice to know INSOMNIAC is there to greet customers. In fact, the kiosk took five rentals on a recent Saturday.”

“A Place for Space is a wonderful example of how technology can empower the individual,” said Robert Chiti, OpenTech’s President and CEO. “It’s great to see Beth running her business on her own without needing extra employees thanks to INSOMNIAC.”

The INSOMNIAC 900 is OpenTech's top-of-the-line self-storage kiosk with built in fingerprint scanner, signature pad, driver's license scanner, digital camera, check and credit card scanner. At A Place for Space, the kiosk works in conjunction with SMD Software's SiteLink 2004™ management software. INSOMNIAC places all customer information into SiteLink the same way a facility manager would, ensuring accurate financial and operational reporting.
