

## Press Release

### **US Door & Building Components Shelters INSOMNIAC**

#### **Standalone Outdoor Building Protects Kiosk and Tenants from the Elements**

PHOENIX, Arizona – October 6, 2006 – OpenTech Alliance, Inc., announced today US Door & Building Components has created and is marketing a standalone, outdoor enclosure specifically designed to house OpenTech’s INSOMNIAC™ self-storage kiosk. The all metal building has a footprint of 5’ by 5’6”, is fully assembled, and comes complete with an INSOMNIAC kiosk installed through one wall and an awning overhead to protect kiosk users from the elements.

Front and Back Views of the US Door INSOMNIAC Shelter

“Most customers want to install INSOMNIAC at the front of their facility but some have trouble finding a way to do this,” said Curtis Sojka, Vice President of Marketing for OpenTech. “US Doors has really stepped up as one of the leading suppliers to the self-storage industry and created an attractive and cost effective solution. Their enclosure looks great, protects users from bad weather, and fits both models of INSOMNIAC kiosk. We couldn’t be happier and know many of our customers will feel the same way.”

“More and more of our customers are designing INSOMNIAC kiosks into their facilities,” remarked Chip Cordes, Vice President of US Door & Building Components. “We’ve created a standalone outdoor enclosure that can be used by new and existing facilities alike with the ability to customize it for special needs or desires. The whole process is done in our manufacturing facility with the final shelter coming preassembled with INSOMNIAC.”

The all metal structure is made from hot-dipped galvanized steel components and can be ordered to fit INSOMNIAC 500 and 900 models. Pricing for the enclosure, without the kiosk, starts at \$2500. Please call OpenTech for more information.

US Door & Building Components is an international supplier of self-storage and commercial wind-load roll-up doors, interior hallway systems, stackable storage, wine lockers, mezzanine systems, portable-storage buildings and structural pier-header systems. Its services include site engineering, design, conversion, bid take-off and professional installation. For more information, please call 1 (877) 877-8875 or visit [www.usdoor.com](http://www.usdoor.com).

OpenTech Alliance, Inc. is the leading developer of self-storage kiosks. Its impressive INSOMNIAC line of self-storage kiosks improves customer convenience, reduces operating costs and increases revenues for self-storage facilities.
